At the Bottom of Shakespeare's Ocean (Shakespeare Now!) Steve Mentz

We need a poetic history of the ocean, and Shakespeare can help us find one. There's more real salt in the plays than we might expect. Shakespeare's dramatic ocean spans the God-sea of the ancient world and the immense blue vistas that early modern mariners navigated. Throughout his career, from the opening shipwrecks of *The Comedy of Errors* through *The Tempest*, Shakespeare's plays figure the ocean as shocking physical reality and mind-twisting symbol of change and instability. To fathom Shakespeare's ocean - to go down to its bottom - this book's chapters focus on different things that humans do with and in and near the sea: fathoming, keeping watch, swimming, beachcombing, fishing, and drowning. **Mentz also sets Shakespeare's sea-poetry against modern literary sea-scapes, including the vast Pacific of *Moby-Dick*, the rocky coast of Charles Olson's *Maximus Poems*, and the lyrical waters of the postcolonial Caribbean. Uncovering the depths of Shakespeare's maritime world, this book draws out the centrality of the sea in our literary culture.**
