Life Comes From Concrete 1.5 is not a continuation of the first edition. What it is exactly is a depiction of a young man finding himself in a world where he must learn to grab it by the horns. Through personal reflections and poems, readers will be able to delve into Anglade's mind and comprehend what it was like to process the pain and heartbreak as his sister, and father disintegrated into the abyss. More importantly, they will come to realize how one moment at a burial changed the young man's perspective on life as well as his understanding of his familial and social responsibilities.
