This easy-to-understand guide is created to quickly fill your child's learning environment with activities that help them attain and sharpen these necessary skills: gross and fine motor, cognitive, logic, dexterity, hand/eye coordination ...and more. These activities also teach practical life skills, including self-care and care of the environment, as well as getting children started in food preparation. For each activity in this book, there will soon be released an associated children's story book. Each of the 101 children's story books will be Montessori inspired and illustrated by the same artist who created the cover art for this book; Robert McKinney. The books will be based on the lives of real children, teaching respect for other cultures. They will contain, not only real life situations that a child can learn from, but the main character in each story will complete an activity from this book to possibly generate interest. We feel that these Montessori-inspired children's story books will be an excellent compliment to the resource we hope this activity book can become for you.
