Are you looking for a work at home opportunity but not sure which are scams or will even ever make you a single dollar?

Well, drop shipping is for you. Well, done my way it is!

Last year, I asked a friend who told me he was drop shipping for help. He pointed me to a website/company where you purchased product from them. However, all the items were soooooo overpriced that I saw no way to actually make money. So, I quit before even getting started.

A month later, another friend had gotten into drop shipping. I didn't know how he was doing it, but as we hung out on a movie set one day (we were extras), his phone was cha-chinging left and right with sales. I saw the items he was selling. They were over-priced (though not as over-priced as what was on the other site I tried). I also saw the items from where he was ordering them from to fill the order. Since he was a friend and I actually saw he was making a profit on these items, I asked him to teach me.

It cost almost nothing to start. \$20 was all I spent. That, and my time...which was 15 hours a week.

I started the day after he taught me all he knew and made a profit my first month. By my third month, I was making \$1500/mo. That income saved me from being homeless.

Today, I make a full time income on it and have taught many people. But, it takes sooooo long to teach people one at a time. So, I decided to just put it all in a book.

With my book, you get step by step instructions...WITH screen shot images indicating where to click, etc.

Everything is covered. It's a short read. You can literally get started selling today!

Almost the only way to fail at this is to just not to the work....most of which is just copy and pasting. There's very little thinking involved at all. Even someone that isn't computer savvy can do this!

\*This book is for adults living in the United States only. While it can be done in other countries, the rules and procedures are different.
