A Grammar of the English Tongue

Samuel Johnson

A Grammar of the English Tongue Samuel Johnson

A Grammar of the English Tongue In this division and order of the parts of grammar I follow the common grammarians, without inquiring whether a fitter distribution might not be found. Experience has long shown this method to be so distinct as to obviate confusion, and so comprehensive as to prevent any inconvenient omissions. I likewise use the terms already received, and already understood, though perhaps others more proper might sometimes be invented. Sylburgius, and other innovators, whose new terms have sunk their learning into neglect, have left sufficient warning against the trifling ambition of teaching arts in a new language.
