Plant Medicine in Practice: Using the Teachings of John Bastyr, 1e William A. Mitchell Jr. ND

This unique book is derived from the teachings of the great eclectic naturopathic physician, John Bastyr ? recognized by his peers as one of the greatest natural healers in the world. Through practical advice and insight drawn from Dr. Bastyr's notes, lectures, and writings, as well as the author's own clinical experiments with plants during 25 years of practice, this carefully compiled volume provides a distinctive picture of the man and his medicine.

- Discussions of the author's actual experience with plants recount real-world findings in a clinical environment.
- Accurate doses for herbal therapies are provided, disputing many of the "accepted" doses that are often too conservative to be effective.
- Eclectic herbalism, a highly effective form of medicine, is introduced and taught so that the practitioner can adopt it in practice.
- The preservation of Dr. Bastyr's knowledge and work occupies an important historical niche, providing unique and practical insight into the work of a key figure in the development of herbal medicine and the naturopathic tradition.
- Simple language and easy-to-understand discussions break down complex medicine into concepts that can be applied to practice.
- Only clinically tried-and-true applications of the plant medicine are given, making this book concise, to-the-point, and relevant.
- The use of lesser known plants provides coverage of remedies not commonly seen in recent studies.
- An alphabetical organization according to physiological categories makes it easy to locate all the plants in a wide variety of categories, such as alteratives, skin remedies, astringents, diuretics, etc.
- Anecdotal evidence based on the author's and Dr. Bastyr's findings show specific examples of the results that might be expected from the use of certain plants.
- Practical advice is offered rather than scientific evidence, comprehensively capturing a key piece of the tradition of herbal medicine.

Nicholas Riley:

As a university student exactly feel bored to be able to reading. If their teacher requested them to go to the library or to make summary for some reserve, they are complained. Just tiny students that has reading's heart and soul or real their interest. They just do what the educator want, like asked to go to the library. They go to presently there but nothing reading really. Any students feel that reading is not important, boring and can't see colorful pictures on there. Yeah, it is to become complicated. Book is very important for yourself. As we know that on this time, many ways to get whatever we wish. Likewise word says, ways to reach Chinese's country. Therefore , this Plant Medicine in Practice: Using the Teachings of John Bastyr, 1e can make you

really feel more interested to read.
