Advanced Engineering Mathematics with MATLAB, Fourth Edition (Advances in Applied Mathematics) Dean G. Duffy

Advanced Engineering Mathematics with MATLAB, Fourth Edition builds upon three successful previous editions. It is written for today's STEM (science, technology, engineering, and mathematics) student. Three assumptions underlie its structure: (1) All students need a firm grasp of the traditional disciplines of ordinary and partial differential equations, vector calculus and linear algebra. (2) The modern student must have a strong foundation in transform methods because they provide the mathematical basis for electrical and communication studies. (3) The biological revolution requires an understanding of stochastic (random) processes. The chapter on Complex Variables, positioned as the first chapter in previous editions, is now moved to Chapter 10. The author employs MATLAB to reinforce concepts and solve problems that require heavy computation. Along with several updates and changes from the third edition, the text continues to evolve to meet the needs of today's instructors and students.

From reader reviews:

Eric Fincher:

Have you spare time for just a day? What do you do when you have much more or little spare time? Yeah, you can choose the suitable activity intended for spend your time. Any person spent their very own spare time to take a wander, shopping, or went to often the Mall. How about open or read a book allowed Advanced Engineering Mathematics with MATLAB, Fourth Edition (Advances in Applied Mathematics)? Maybe it is being best activity for you. You recognize beside you can spend your time with the favorite's book, you can wiser than before. Do you agree with its opinion or you have various other opinion?

Theodore Stewart:

This Advanced Engineering Mathematics with MATLAB, Fourth Edition (Advances in Applied Mathematics) book is not really ordinary book, you have after that it the world is in your hands. The benefit you have by reading this book is usually information inside this book incredible fresh, you will get information which is getting deeper anyone read a lot of information you will get. This kind of Advanced Engineering Mathematics with MATLAB, Fourth Edition (Advances in Applied Mathematics) without we understand teach the one who reading through it become critical in pondering and analyzing. Don't be worry Advanced Engineering Mathematics with MATLAB, Fourth Edition (Advances in Applied Mathematics) can bring whenever you are and not make your bag space or bookshelves' turn out to be full because you can have it in your lovely laptop even mobile phone. This Advanced Engineering Mathematics with MATLAB, Fourth Edition (Advances in Applied Mathematics) having excellent arrangement in word as well as layout, so you will not truly feel uninterested in reading.

Michelle Gilbert:

Are you kind of active person, only have 10 or 15 minute in your time to upgrading your mind skill or thinking skill actually analytical thinking? Then you are experiencing problem with the book than can satisfy your small amount of time to read it because all of this time you only find guide that need more time to be examine. Advanced Engineering Mathematics with MATLAB, Fourth Edition (Advances in Applied Mathematics) can be your answer since it can be read by an individual who have those short time problems.

Theresa Tompkins:

A lot of book has printed but it takes a different approach. You can get it by internet on social media. You can choose the best book for you, science, comedy, novel, or whatever by searching from it. It is named of book Advanced Engineering Mathematics with MATLAB, Fourth Edition (Advances in Applied Mathematics). You can contribute your knowledge by it. Without causing the printed book, it may add your knowledge and make a person happier to read. It is most essential that, you must aware about e-book. It can bring you from one destination for a other place.
