Analysis of Variance (Quantitative Applications in the Social Sciences)

Gudmund R. Iversen, Helmut P. Norpoth

Analysis of Variance (Quantitative Applications in the Social Sciences) Gudmund R. Iversen, Helmut P. Norpoth

The second edition of this book provides a conceptual understanding of analysis of variance. It outlines methods for analysing variance that are used to study the effect of one or more nominal variables on a dependent, interval level variable. The book presumes only elementary background in significance testing and data analysis.
