The Paper Garden: An Artist Begins Her Life's Work at 72 Molly Peacock

In 1772, upon the death of her second husband, Mary Delany arose from her grief, picked up a pair of scissors, and, at the age of seventy-two, created a new art form: mixed-media collage. Over the next decade, Mrs. Delany produced an astonishing 985 botanically correct, breathtaking cut-paper flowers, now housed in the British Museum and referred to as the *Flora Delanica*. As she tracks the extraordinary life of Delany-friend of George Frideric Handel and Jonathan Swift-internationally acclaimed poet Molly Peacock weaves in delicate parallels in her own life and, in doing so, creates a profound and beautiful examination of the nature of creativity and art. This gorgeously designed book, featuring thirty-five full-color illustrations, is to be devoured as voraciously as one of the court dinners it describes.
