The Presence of Other Worlds: The Psychological/Spiritual Findings of Emanuel Swedenborg Wilson Van Dusen

“Here is an account of a scientific genius, dead two centuries, who having mastered all that science knew of the external world, went on to a daring, often frightening, exploration of the inner world. Van Dusen, having traveled some of the same distance himself, presents Swedenborg sympathetically in the man's own terms. An excitingly thoughtful book.” — Carl R. Rogers
