Aligning the Economic Cycle with the Time Cycle Charu Bahri

Have you ever wondered whether the changing economic and social scenario is linked to a greater time cycle? Aligning the Economic Cycle with the Time Cycle weaves a pattern in the changing face of our socio-economic lives vis-à-vis time. Time, like the boom and fall of economies, also follows a cyclic model. Social perceptions of time form the basis for economic action. Aligning the Economic Cycle with the Time Cycle emphasizes that we cannot understand our true self until we master the flow of time and familiarize ourselves with the intricate nature of time. It presents a time study lucidly and puts forward searching questions that need to be addressed before we formulate an opinion about the origin of our world and our current position in the time cycle. There is more to time than we generally perceive; Aligning the Economic Cycle with the Time Cycle fits many jigsaw pieces in the right place to understand the time puzzle more fully. While a rational approach to science and theology answers many questions, the average reader often does not get so much material in one compilation to formulate a concurrent opinion. Aligning the Economic Cycle with the Time Cycle is ideal reference material for scholars of time studies, economics and human-consciousness studies.
