The *Clinical documentation improvement (CDI)* is not about how to code in ICD-10 or CPT®. CDI is knowing what to look for in medical records, as well as how to ask for clarification and get ongoing changes to the notes and comments provided by physicians. *Important Note: The greater number of ICD-10-CM diagnostic codes means an even bigger need for detailed clinical documentation. Making the right codes selection requires having adequate clinical detail, and under ICD-10, clinician's documentation will--more than ever--translate into reimbursement gained or lost.*
