Microsoft Office 2007 Power Point: A training book for Microsoft PowerPoint 2007 W. R. Mills

This book is not intended to be an "Everything you will ever need to know" about Microsoft Power Point 2007, although in some cases it might be. It is as the name implies a "beginner's guide" to Power Point 2007. This book has two purposes: First to provide the inexperienced user with a working knowledge of Power Point 2007. The second purpose is to explain the new user interface, the Ribbon. I hope this helps.
