## **The Politics of American Feminism: Gender Conflict in Contemporary Society** James T. Bennett

This work assesses, with scholarly scrupulousness and irreverent wit, the ways in which the American male is being blamed, castigated, slandered, emasculated, and just plain harassed for a multitude of crimes and sins because of a single trait: "maleness." From cradle to grave, public policy and the teachings of the groves of the academe are increasingly shaped by an anti-male bias. Chapters examine the ways in which American men and maleness are punished in childhood; in school; in history texts; in language; in the wallet; in religion; and even in recreation.

Although the book's tone is often light, the subject is a serious one that the mainstream media often avoids. *The Politics of American Feminism* debunks dated myths, defends individual liberty against feminist assaults, offers an impious take on the narrow focus of the women's movement, and has as a central premise that not only are men essential to the health of the nation and the survival of the species, but they also have a few salutary qualities as well.
