Richard Lawson

Web Scraping with Python (Community Experience Distilled) Richard Lawson

Successfully scrape data from any website with the power of Python

About This Book

- A hands-on guide to web scraping with real-life problems and solutions
- Techniques to download and extract data from complex websites
- Create a number of different web scrapers to extract information

Who This Book Is For

This book is aimed at developers who want to use web scraping for legitimate purposes. Prior programming experience with Python would be useful but not essential. Anyone with general knowledge of programming languages should be able to pick up the book and understand the principals involved.

What You Will Learn

- Extract data from web pages with simple Python programming
- Build a threaded crawler to process web pages in parallel
- Follow links to crawl a website
- Download cache to reduce bandwidth
- Use multiple threads and processes to scrape faster
- Learn how to parse JavaScript-dependent websites
- Interact with forms and sessions
- Solve CAPTCHAs on protected web pages
- Discover how to track the state of a crawl

In Detail

The Internet contains the most useful set of data ever assembled, largely publicly accessible for free. However, this data is not easily reusable. It is embedded within the structure and style of websites and needs to be carefully extracted to be useful. Web scraping is becoming increasingly useful as a means to easily gather and make sense of the plethora of information available online. Using a simple language like Python, you can crawl the information out of complex websites using simple programming.

This book is the ultimate guide to using Python to scrape data from websites. In the early chapters it covers how to extract data from static web pages and how to use caching to manage the load on servers. After the basics we'll get our hands dirty with building a more sophisticated crawler with threads and more advanced topics. Learn step-by-step how to use Ajax URLs, employ the Firebug extension for monitoring, and indirectly scrape data. Discover more scraping nitty-gritties such as using the browser renderer, managing cookies, how to submit forms to extract data from complex websites protected by CAPTCHA, and so on. The book wraps up with how to create high-level scrapers with Scrapy libraries and implement what has

been learned to real websites.

Style and approach

This book is a hands-on guide with real-life examples and solutions starting simple and then progressively becoming more complex. Each chapter in this book introduces a problem and then provides one or more possible solutions.

Mindy Martinez:

As we know that book is vital thing to add our expertise for everything. By a guide we can know everything we really wish for. A book is a set of written, printed, illustrated or blank sheet. Every year had been exactly added. This book Web Scraping with Python (Community Experience Distilled) was filled concerning science. Spend your extra time to add your knowledge about your scientific disciplines competence. Some people has diverse feel when they reading the book. If you know how big benefit from a book, you can really feel enjoy to read a guide. In the modern era like today, many ways to get book that you simply wanted.

Jenni Roberts:

As a pupil exactly feel bored to reading. If their teacher questioned them to go to the library as well as to make summary for some guide, they are complained. Just little students that has reading's heart and soul or real their passion. They just do what the trainer want, like asked to go to the library. They go to presently there but nothing reading seriously. Any students feel that looking at is not important, boring and can't see colorful pictures on there. Yeah, it is to become complicated. Book is very important for yourself. As we know that on this age, many ways to get whatever we really wish for. Likewise word says, ways to reach Chinese's country. So , this Web Scraping with Python (Community Experience Distilled) can make you sense more interested to read.
