Do you hear the calling to publish a book? -Perhaps others have told you 'you need to write a book' -Perhaps you feel like this is the smart business move -Perhaps you have no idea where to start -Perhaps you've started and stopped over and over again, never getting any closer to finishing. Well let me tell you, the world needs your message. This book is for all of my content-hoarding agents of change who are sitting there being selfish, holding onto their ideas and words and beautiful messages. It's unacceptable that there are movements to be made in the world and these gorgeous creators are doing anything but creating. We're going to dive in from that first step of writing a book through to the last step of publishing it. This isn't a formula - no book on creativity ever truly is. But it is a series of the un-Google-able steps which if actually taken, will end up with you finally having that damn book in your hands.
