- *Step 1: Plan.* Identifying your Key Motivator, determining the Core Message, and picking out your Focus Market
- *Step 2: Prepare.* Generating ideas during the Brain Dump, organizing during the Outline Session, and brainstorming a title
- *Step 3: Create.* Actually writing the content, returning later to revise it, and potentially hiring an editor or proofreader
- *Step 4: Bookify.* Turning the manuscript into a real book, including adding front and back matter
- *Step 5: Enhance.* Enriching the book by inserting images and laying out the interior
- *Step 6: Design.* Creating a stunning cover
- *Step 7: Publish.* Finally! Making your book available worldwide

When you have finished reading this book, you will know how to author your own book from start to finish. And once you publish and market your author status, you will experience increased credibility and authority. These always results in more clients and business growth.
