This text asks why, when our society has rejected euthanasia for over 2000 years, are we now considering legalizing it? Has euthanasia been promoted by deliberately confusing it with other ethically acceptable acts? What is the relation between pain relief treatments that could shorten life and euthanasia? How do journalistic values and media ethics affect the public's perception of euthanasia? What impact would the legalization of euthanasia have on concepts of human rights, human responsibilities, and human ethics? Can we imagine teaching young physicians how to put their patients to death?; There are vast ethical, legal, and social differences between natural death and euthanasia.
