## **Emergent Architectural Territories in East Asian Cities** Peter G. Rowe

This book presents current developments in city planning and architecture in East Asia. It describes the many neighborhoods in which the regions large cities are modernizing or expanding with innovative structures and advanced construction projects. It combines a typology of public structures with an analysis of the compositional principles of urban environments. Thus, it finally connects new developments in city planning with new developments in architecture, and considers examples such as CCTV, Lujiazui, Kansai Airport, Xinyi, Taipei 101, Chek Lap Kok, Cheonggyecheon, Roppongi Hills, Da Shanzi, Shahe, Omotesando, and Marina Bay from a new perspective. And the new perspectives presented here are not just theoretical: some forty full-page birds eye views prepared especially for this volume show these future urban settings in highly detailed images of breathtaking beauty. The result is a rich portrait of the coming together of global and local influences in non-Western countries. With its systematic approach, this presentation by one of the leading international experts in the field is a reference work on a topic of central importance to the world of construction today. Dieses Buch präsentiert die aktuellen städtebaulichen und architektonischen Entwicklungen in Fernost. Es beschreibt die zahlreichen Stadtquartiere, in denen sich die Großstädte mit innovativen Strukturen und avancierten Bauvorhaben erneuern oder ausdehnen. Es verbindet eine Typologie der öffentlichen Bauten mit einer Analyse der Kompositionsprinzipien städtischer Räume. Dabei setzt es endlich die städtebaulichen Entwicklungen mit der neuen Architektur in Verbindung und betrachtet Beispiele wie CCTV, Lujiazui, Kansai Airport, Xinyi, Taipei 101, Chek Lap Kok, Cheonggyecheon, Roppongi Hills, Da Shanzi, Shahe, Omotesando and Marina Bay aus einer neuen Perspektive. Auch im wörtlichen Sinn werden hier neue Perspektiven entwickelt: Etwa 40 ganzseitige Vogelschauperspektiven, die
