The Robotics Divide: A New Frontier in the 21st Century?

The Robotics Divide: A New Frontier in the 21st Century?

Societies survive in their environment and compete with each other depending on the technology they develop. Economic, military and political power are directly related to the available technology, while access to technology is key to the well-being of our societies at the individual, community and national level.

The Robotics Divide analyzes how robotics will shape our societies in the twenty-first century; a time when industrial and service robotics, particularly for military and aerospace purposes, will become an essential technology. The book, written by experts in the field, focuses on the main technological trends in the field of robotics, and the impact that robotics will have on different facets of social life. By doing so, the authors aim to open the “black box” of a technology which, like any other, is designed, implemented and evaluated according to the economic and cultural patterns of a cosmopolitan society, as well as its relations of power.

The Robotics Divide explores future developments in robotics technology and discusses the model of technological development and the implementation of robotics in this competitive market economy. Then the authors examine to what extent it is possible to determine the characteristic features of the robotic divide, namely in what ways the robotic divide differs from the digital divide, and how a model to integrate this technology can be developed without reproducing patterns of inequality and power that have characterized the advent of previous technologies.

These issues - inequality, robotics and power - are of concern to robotics and advanced automation engineers, social scientists, economists and science policy experts alike.

From reader reviews:

Joan Rogers:

The book *The Robotics Divide: A New Frontier in the 21st Century?* can give more knowledge and information about everything you want. Why must we leave the good thing like a book *The Robotics Divide: A New Frontier in the 21st Century?*? Wide variety you have a different opinion about publication. But one aim which book can give many data for us. It is absolutely appropriate. Right now, try to closer with the book. Knowledge or information that you take for that, you could give for each other; it is possible to share all of these. Book *The Robotics Divide: A New Frontier in the 21st Century?* has simple shape however, you know: it has great and large function for you. You can appear the enormous world by open up and read a guide. So it is very wonderful.

Mary Burnette:

Nowadays reading books become more than want or need but also become a life style. This reading routine give you lot of advantages. Advantages you got of course the knowledge your information inside the book that will improve your knowledge and information. The details you get based on what kind of publication you read, if you want get more knowledge just go with training books but if you want feel happy read one along with theme for entertaining like comic or novel. The actual *The Robotics Divide: A New Frontier in the 21st Century?* is kind of guide which is giving the reader capricious experience.

Agnes Figueroa:

Are you kind of busy person, only have 10 or maybe 15 minute in your moment to upgrading your mind ability or thinking skill actually analytical thinking? Then you are experiencing problem with the book as compared to can satisfy your short period of time to read it because this time you only find book that need more time to be go through. *The Robotics Divide: A New Frontier in the 21st Century?* can be your answer as it can be read by an individual who have those short free time problems.

Freddie Straughter:

Within this era which is the greater particular person or who has ability in doing something more are more important than other. Do you want to become certainly one of it? It is just simple solution to have that. What you must do is just spending your time almost no but quite enough to possess a look at some books. On the list of books in the top checklist in your reading list will be *The Robotics Divide: A New Frontier in the 21st Century?*. This book which can be qualified as *The Hungry Inclines* can get you closer in turning into precious person. By looking way up and review this book you can get many advantages.
