Zion National Park 2013 Canyon Atlas: Utah Majestic Canyons Joe Berardi

Zion National Park has a reputation of being one of America's best scenic and hiking adventures. This park is located in the southwestern corner of Utah. It is known for towering cliffs, steep canyon walls, colorful rock spirals, arches and great panoramic views. The upper Narrows and the Subway are both destinations for just about every southwest landscape photographer capable of remote canyon hikes. This atlas is essential for planning successful hikes in the Zion National Park wilderness. The Zion National Park 2013 Canyon Atlas: Utah Majestic Canyons is a compilation of topographical maps that are required by any hiker attempting to hike the remote and rugged canyons of Zion National Park. The custom detailed maps make finding and hiking these majestic canyons much easier and the maps have key GPS coordinates for finding the trailheads, canyon entrances or milestones along the hike. This book of maps eliminates the anxiety of trial and error hiking for exploring some of the best canyon adventures in the United States. This atlas eliminates the need to buy multiple 7.5x7.5 quad maps for a single hike and pays for itself by not having to buy multiple high resolution maps. The author has wrestled with large maps on a windy day and has produced an atlas that is a pleasure to use out on the trail. The featured canyon hikes in this book include: Angels Landing, Emerald Pools, Hidden Canyon, Observation Trail, Riverside Walk, Kolob Arch, Taylor Creek, The Subway and The Narrows. This book makes an excellent supplement to the author's "Slot Canyon Hikes & Adventures" book and or any other hiking books for this area.
