The easiest way to learn is when someone provides an example, and that is what I propose with the runes. Each rune has a standard meaning; however, the books teaching how to read the runes never provide an example. Every rune tells a story, so why not tell a story to go along with every rune; for example, a brief story that uncovers the meaning of the runes through a fictional situation. This provides the student of the runes with the meaning and an example of how it could apply to life.
