## Surgical Palliative Care (Supportive Care)

This book describes the principles and practice of surgery in the context of palliative and supportive care. Surgery is often considered too invasive to be useful in palliation and clinicians instinctively turn to radiotherapy, chemotherapy, and other drugs. Surgery, with increasingly minimal access techniques, may be simpler and less invasive than other treatments and produces excellent palliation. Indeed, most types of surgery are not curative and the aim of this book is to alert all concerned with palliative care to the usefulness and appropriateness of a surgical option.

The book is made up of two sections. The first deals with general issues, varying from quality of life measurement to spirituality, and the second section illustrates their application in different specialties of surgery ranging from neurosurgery to urology. The book ends with a challenge to surgeons to change their perspective from curative surgery, in terms of simply cure or failure, to improvement in quality of life and relief of symptoms. Aimed primarily at palliative medicine and pain consultants, this book will also appeal to surgeons who increasingly need to know more about palliative care.

#### **Harvey Sanchez:**

As a university student exactly feel bored to help reading. If their teacher questioned them to go to the library as well as to make summary for some guide, they are complained. Just small students that has reading's heart and soul or real their passion. They just do what the professor want, like asked to go to the library. They go to generally there but nothing reading really. Any students feel that reading through is not important, boring as well as can't see colorful pics on there. Yeah, it is being complicated. Book is very important for you. As we know that on this period, many ways to get whatever we want. Likewise word says, ways to reach Chinese's country. So , this Surgical Palliative Care (Supportive Care) can make you feel more interested to read.

#### **Martha Dixon:**

What is your hobby? Have you heard that question when you got scholars? We believe that that concern was given by teacher with their students. Many kinds of hobby, Everyone has different hobby. So you know that little person just like reading or as studying become their hobby. You have to know that reading is very important as well as book as to be the matter. Book is important thing to add you knowledge, except your own personal teacher or lecturer. You see good news or update with regards to something by book. A substantial number of sorts of books that can you go onto be your object. One of them are these claims Surgical Palliative Care (Supportive Care).
