In the Image and Likeness of God Vladimir Lossky

Vladimir Lossky established himself as one of the most brilliant Orthodox scholars in the years between his departure from Russia in 1923 and his death in 1958. His uncompromising faithfulness to scriptural and patristic tradition, coupled with his constant concern for an articulate Orthodox witness in the West, make his works indispensable for an understanding of the theology of the Eastern Church today. Here, in twelve essays, he explores the implications of the Orthodox understanding of man's destiny - communion in love with triune God.

Concerned with the fundamental questions of theology, Lossky addresses the following: can we really know God? How are we to understand the relation of creation to the Creator? Where is it that we are to find the heart of the Christian message? In the process of answering questions such as these, the author shows the doctrinal issues are not just abstract propositions for theological debate but affect the whole of Church life.
